HCLTech Works for Singapore Exchange (SGX)

Chennai, India (Remote)

Senior Technical Lead

May 2026 – Present

- **Cloud-Native Modernization SME:** Serving as Subject Matter Expert for application modernization, leading end-to-end transformation of 3 legacy enterprise applications into cloud-native solutions using .NET Core, EF Core, LINQ, and Clean Architecture.
- **End-to-End Leadership & Delivery:** Owned delivery for high-impact projects by driving cross-functional alignment across Wintel, Firewall, Networking, Certification, DevOps, Cloud, and Core Development teams.
- **Stakeholder Alignment & Governance:** Bridged technical and business divides by facilitating clear communication across global, cross-functional teams, aligning delivery timelines, coordinating with stakeholders, and authoring Architecture Review Board (ARB) and Application Framework (AF) governance artifacts..
- **API Development & Security:** Designed and developed secure RESTful Web APIs using JWT and Stargate Authentication while maintaining strict compliance for P2-classified sensitive user data.
- **Integration & Automation:** Rapidly delivered a custom ServiceNow integration within one week to streamline deployment and ITSM incident workflows; built secure file upload and processing modules.
- **DevOps & AI Exploration:** Configured CI/CD pipelines and Ansible automation; driving local experimentation using Angular, .NET 10 Web APIs, Microsoft.Extensions.AI, Semantic Kernel, RAG, pgvector, Ollama LLM, and MCP.
